

Worldwide Online Searchable Investor Databases Launched

By Justin Floyd

Dated: Mar 17, 2010

JCF Consulting, Inc. and JCF Capital Advisors, LLC have launched an online global investor database search service made available to anyone online at a low per record price.

San Diego, CA, Databases included in initial launch: Angel Capital, Venture Capital, Real Estate Capital, Private Equity Capital, and Family Office Capital databases. Future releases include Film Finance and Hedge Fund databases.

Recognizing the difficulties to find investor funds in today's capital climate for quality projects worldwide, JCF Consulting, and JCF Capital Advisors, LLC have initiated an online service enabling anyone to access worldwide investor databases that are searchable and filterable by country, by state, and by city at a low per record price.

Most entrepreneurs have to hire an outside firm, buy an expensive subscription to comparable databases, or agree to purchase in full without being able search, sample, or test the data.

The online service can be accessed at <https://jcfconsulting.com/dbs/>.

Links to databases included in initial launch:

Real Estate Capital Database (over 530 records including pensions, endowments, foundations, private equity, etc)
